**MAINTENANCE  
PROBLEMS**

**no 4/2015**

**Problemy Eksploatacji – Maintenance Problems**  
**Scientific quarterly of the Institute for Sustainable Technologies**  
**– National Research Institute (ITeE – PIB)**

Information about articles printed in the Journal can be found in the following three renowned databases:

- Index Copernicus – the international specialized platform promoting scientific achievements, and supporting national and international collaboration between scientists, publishers of scientific journals and R&D units;
- BazTech – bibliographic and abstract database about Polish technical journals, in which articles from selected Polish journals in the field of technical sciences and environmental protection are stored;
- TEMA (Technology and Management) WTI-Frankfurt eG, Frankfurt am Main.

Articles are reviewed by reviewers constantly cooperating with the Journal. The list of them is presented on the website of the Journal:  
<http://www.problemyeksploatacji.itee.radom.pl/index.php/wskazówki/lista-recenzentów.html>

**EDITORS**

Editor-in-chief – Prof. Adam MAZURKIEWICZ

Deputy editor – Marian GRĄDKOWSKI, PhD

Secretary – Beata BELINA, PhD

**Thematic editors:**

- |                        |                                                                                            |
|------------------------|--------------------------------------------------------------------------------------------|
| Prof. Tomasz Giesko    | – mechatronic and optomechatronic systems, optomechatronic measurement methods;            |
| Joanna Łabęcka, PhD    | – knowledge transformation systems, IT platforms, technology transfer, foresight;          |
| Andrzej Majcher, PhD   | – control systems, metrology;                                                              |
| Marian Grądkowski, PhD | – biotechnologies, ecology, operational fluids management;                                 |
| Beata Poterska, PhD    | – innovations, technology transfer, foresight;                                             |
| Prof. Jerzy Smolik     | – surface engineering, hybrid technologies, materials test methods;                        |
| Andrzej Zbrowski, PhD  | – basis for the design and construction of machines, operational and standardization tests |
