

CLIL IN VOCATIONAL TRAINING

Łukasiewicz Research Network – The Institute for Sustainable Technologies
and the University of Warsaw,
jointly and on behalf of all research partners,
cordially invite all interested parties
to the closing conference of the
"Implementing the CLIL-VET Model in Vocational Schools"
project, funded through the Erasmus+ programme.

The aim of the conference is to communicate the results of the CLIL-VET project
to the general public, showcasing how the outputs themselves can be used
to improve vocational education.

There is no conference fee (free participation)

The organizer shall provide the following:

- lunch and coffee break service
- conference package
- certificates of participation
- simultaneous conference interpreting
(English to Polish and Polish to English)
